

Windthorst ISD Translation Procedures

Purpose: Windthorst ISD recognizes the crucial role that parents, guardians and families play in the education of their children. Windthorst ISD encourages partnerships between the district administration, schools, and families in order to share the responsibility of educating our students. To that end, this policy is created to ensure that parents who speak languages other than English are provided appropriate translation and interpreting services so that families may fully participate in the education of their children.

Identification: The District will use the Home Language Surveys (HLS) to determine both the students and parents' language needs. Parents who speak a language other than English, and were not identified by the HLS, may request services for school-related communications at any time following the Procedures for Requesting Services listed below.
